AmberClean™ 502 is a non-silicate, biodegradable high pressure spray cleaner designed specifically for use on metals, plastics and composite materials. Its unique water-based formulation is founded on new cleaning technology and possesses a degree of environmental and personal safety that exceeds typical cleaners for similar applications. The non-foaming properties of AmberClean™ 502 make it ideal for high pressure and high temperature spray cleaning applications. AmberClean™ 502 contains unique corrosion inhibition technology allowing metal surfaces to be protected during cleaning processes without the use of silicates.

**FEATURES AND BENEFITS**

- Ideal for high pressure, high temperature spray applications
- Non-foaming and rinses easily
- Cleans grease, oil, dirt, ink and wax combinations effectively
- Designed to prevent corrosion on ferrous and non-ferrous substrates
- Non-toxic and non-flammable
- Non-silicate, non-caustic, noncorrosive and safe to use
- Will not leave films or residues
- Biodegradable and poses no environmental or health risks
- Does not contain silicone, phenols phthalates or ozone depleting compounds (ODCs)

**TYPICAL PHYSICAL PROPERTIES**

<table>
